

## **RTOs and TAFEs Wanting Assessment Only Resources**

### **We have the resources for ACM30612 Certificate III in Pet Grooming and ACM40612 Certificate IV in Pet Styling**

IGC uses DGI Intellectual property for all its online assessments for Certificate III in Pet Grooming and Certificate IV in Pet styling.

There maybe part or all of the Certificate that you require our intellectual property. IGC can work with you to provide the missing resources required to complete the certificate for grooming. IGC can organise to register your students on the specific assessments required for your course. A fee per student will be charged to the RTO or TAFE, and IGC will register and assess the online assessments required by the RTO or TAFE.

Our Assessors can also be used to conduct your practical assessment at an hourly fee.

International Grooming Company (IGC) is solely in charge of assessments only and providing the DGI training manuals. International Grooming Company and Dog Grooming International hold no responsibility to the training you deliver before, during, and after completing the assessments. The training you deliver is totally independent of both DGI and IGC. The students remain the students of the RTO or TAFE.

**If you are interested in using IGC assessment only resources, please contact**
